MAMMA
Music and lyrics by Cèlia Pallí

I will love you till the stars
Outshine the sun out of the sky
You guided me through life
And as we speak of silence I die

I hear your voice
Through time and space
Letting me know
That you exist
I hear your voice
Through time and space
Letting me know
That you exist

My mama told me years ago
If you can dream it, you'll do it
My mama told me years ago
If you can dream it, you'll do it
My mama told me years ago
If you can dream it, you'll do it
My mama told me years ago
If you can dream it, you'll do it

Your love will find me
Through deserts
Through storms and lightning
You're with me now
Your words make me feel
My childhood again
Where my safety
In your arms began

I hear your voice
Through time and space
Letting me know
That you exist
I hear your voice
Through time and space
Letting me know that you exist

My mama told me years ago
(You are my light)
If you can dream it, you'll do it
My mama told me years ago
(You are my light)
If you can dream it, you'll do it
My mama told me years ago
(You are my light)
If you can dream it, you'll do it
My mama told me years ago
(You are my light)
If you can dream it, you'll do it

I hear you voice
I know you're here with me

My mama told me years ago
If you can dream it, you'll do it
My mama told me years ago
If you can dream it, you'll do it
My mama told me years ago
If you can dream it, you'll do it
My mama told me years ago
If you can dream it, you'll do it
If you can dream it, you'll do it
If you can dream it, you'll do it
