

## **YOU KNEW**

*Music and lyrics by Cèlia Pallí*

Gave everything I had in me  
To you  
Put every dime in this bet and still  
Got screwed  
No one else could love you more  
Than I do  
In my life there was just you  
And you knew

'Cause I was there  
To give a helping hand and  
You couldn't care less  
'Bout what we had. That's that...

Every step I took I took  
Towards you  
Was the light that shone on you  
When blue  
I gave you air, you took it all  
Thought that was love  
Now I finally see you  
And you lose

'Cause I was there  
To give a helping hand  
And you couldn't care less  
'Bout what we had. That's that.

And you knew  
All along you knew  
And you knew  
How much I cared for you.

I walked into it so blindly  
I never saw, I was in it alone  
But when a full room echoes  
There is no choice  
One has to go

And you knew  
All along you knew  
And you knew  
How much I cared for you.

And how long did you  
Think I'd stay for  
(you knew, cause you...)  
With someone who already  
Walked out the door?  
(you knew, cause you...)  
And how long did you  
Think I'd stay for  
(you knew, cause you...)  
With someone who already  
Walked out the door?  
(you knew...)

And you couldn't care less  
'Bout what we had. That's that.
